

6th Swiss Corrosion Science Day 2022

2 May 2022

10:00 - 16:00

at ETH Zurich

ETH zürich

organized by the

SwissCorr
The Swiss Corrosion Network

Swiss Corrosion Science Day 2022

The **Swiss Corrosion Network** ties together partners from private and public institutions with the common interest in corrosion by promoting corrosion research and education and encouraging collaboration, knowledge exchange and synergies between academic and industrial actors. A particular goal is to support and promote young scientists and corrosion engineers.

Our members bring together expertise in corrosion science and technology from a broad range of sectors including civil engineering and construction, surface and interface engineering, biomedical devices, nuclear engineering and radioactive waste storage, geothermal energy, micro component and additive manufacturing as well as cultural heritage preservation.

On **2 May 2022**, the 6th Swiss Corrosion Science day will be held at **ETH Zurich**.

We aim to bring corrosion groups in Switzerland together for presentation, knowledge exchange, interaction and networking. We cordially invite **scientists and engineers from academia and industry** who are interested and/or confronted with corrosion related issues in Switzerland to join us on 2 May 2022.

The event is planned to be held with physical presence on **ETH campus Hönggerberg** in the building HIT, in room E 51. This meeting room is modern and large and will allow for keeping distance between participants.

Depending on the situation in spring 2022, changes to the format of the event may be considered (online / hybrid)

For information about the venue and directions:

Call for abstracts

We want to feel the pulse of the branch and invite you to present your research project or insights from industry.

Submit your abstract by email to:
info@swisscorr.ch

There are no particular formatting requirements for the abstract. Make sure to include a title, list of authors and their affiliation, and an abstract text of max. 500 words. The language for abstracts and presentations is English (with some flexibility).

The Scientific Committee will inform about the acceptance of the abstracts for either the oral presentations or posters by mid March 2022. No submissions of papers are required.

The definitive programme of the Swiss Corrosion Science Day will be published by end of March 2022.

Important dates

Submission of abstracts:

28 February 2022

Notification of abstract acceptance:

18 March 2022

Registration:

22 April 2022
